## PROFESSIONAL EXPERIENCE

### Full Stack Developer

December 2024 – Present

*Genesis Webcraft*

*Tashkent, Uzbekistan*

- Architected and developed a high-performance REST API using MongoDB and EdgeStore, improving data management for LMS.
- Led the development of a full-stack app with React, Next.js, MongoDB, and EdgeStore for GitHub data analysis.
- Created team collaboration data visualizations, enhancing project workflow and productivity insights.

### Frontend Engineer

August 2024 – November 2024

*ShahExpress E-commerce*

*Tashkent, Uzbekistan*

- Developed a responsive homepage that increased user engagement by 30%.
- Built dynamic product showcases, improving user experience and conversion rates.
- Worked cross-functionally to ensure scalability, performance, and UI consistency across platforms.

## PROJECTS

### Maktab 230 | JavaScript, TypeScript, React, Next.js, MongoDB, EdgeStore Dec 2024 – Jan 2025

- Developed a Full-Stack Application with Next.js, TypeScript, and MongoDB, ensuring full integration.
- Implemented secure authentication with Firebase or NextAuth.js for students, teachers, and admins.
- Created Role-Based Access Control to manage different access levels for users.
- Optimized database design to store student data, schedules, assignments, and attendance.
- Integrated Telegram API for real-time school activity notifications.
- Implemented EdgeStore API for secure document and image uploads.
- Designed a dynamic UI with Tailwind CSS, optimized for desktop and mobile views.
- Leveraged SSR and SSG in Next.js for performance optimization.
- Deployed the application on Vercel for fast load times and high availability.

### Afex AI Chatbot | Telegram API, TypeScript, Next.js, Git Jan 2025 – May 2025

- Built a product management app for tracking products and sales with interactive data visualizations.
- Implemented Telegram API for real-time automated notifications, improving engagement.
